PREFACE

The 1924 annual volume of the Industrial Arts Index covers approximately the period from December 1, 1923, to December 1, 1924, and includes all the periodical references and the 1511 book titles that have appeared in the 1924 numbers of the Index. Over forty additional magazines have been indexed for 1924. These are American Exporter, American Management Review, Annals of the American Academy of Political and Social Science, Bankers Magazine, Bradstreet's, Bulletin of the Taylor Society, Burroughs Clearing House, Chase Economic Bulletin, Chemical Reviews, Commerce and Finance, Commerce Monthly, Dun's International Review, Dun's Review, Economic Journal, Economic World, Economist, Elektrotechnische Zeitschrift, Federal Reserve Bulletin, Forbes, Harvard Business Review, Index, Investment Bankers Association of America [Bulletin], Journal of the American Bankers Association, Journal of the American Statistical Association, Journal of the Royal Statistical Society, Manufacturers Record, Mining Congress Journal, Moody's Investors Service, National City Bank of New York [Bulletin], Nation's Health, Petroleum Age, Public Service Management, Radio News, Radio Service Bulletin, Review of Economic Statistics, Rubber Age, Sales Management, Spectator, Survey of Current Business, United States Bureau of Mines—Reports of Investigations and University Journal of Business. Zeitschrift des Vereins Ingenieure has recently been added to the list but the earlier numbers of the year are not included. It is hoped that these will be obtained and indexed before the publication of the 1925 volume, which will be a two-year cumulation.

Grateful acknowledgment is made to Elsie Schonholtz, who has revised most of the copy for this Index, and to Dorothy Whitaker, Eleanor Whaley and Florence Plimpton whose interest and faithful work have helped to make this volume possible.
